1.0 Introduction

1.1 Purpose

The Room Booking System is a web-based application developed to replace the traditional manual room booking process. The system allows users to manage room information and make room reservations through a centralized online platform.

This user manual provides step-by-step guidance on using the system's main functions, including user authentication, room management, booking management, and profile management.

2.0 System Requirements

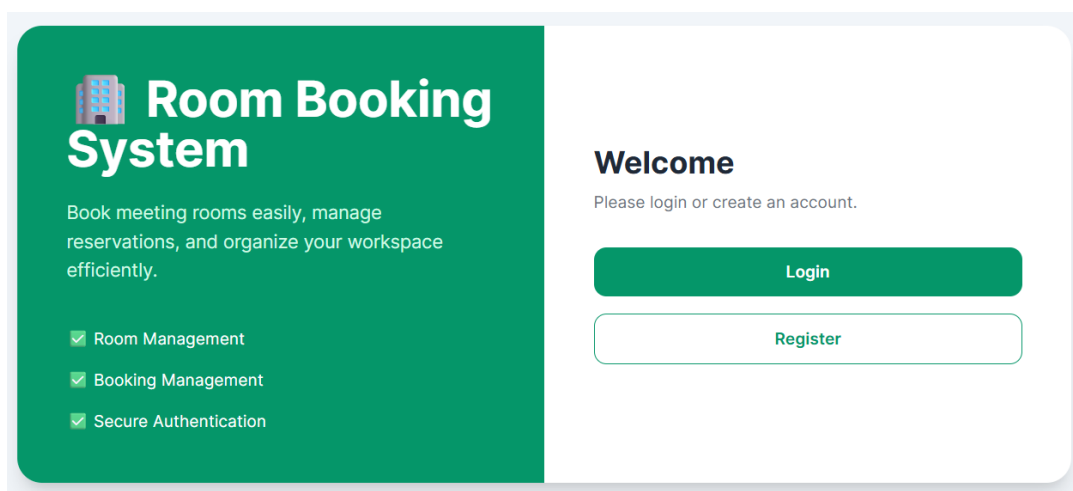

Item	Requirement
Operating System	Windows 10/11 or later
Web Browser	Google Chrome (Recommended)
PHP	Version 8.3
Laravel	Version 13
MySQL	Version 8.0
Internet	Required for hosted deployment
Local Environment	Laragon

3.0 Accessing the System

Open your web browser and enter:

http://127.0.0.1:8000

The Home page will appear.

4.0 Home Page

The Home Page is the entry point of the system.

Users can:

- View the system introduction
- Click **Login**
- Click **Register**

Buttons

Button	Function
Login	Access existing account
Register	Create new account

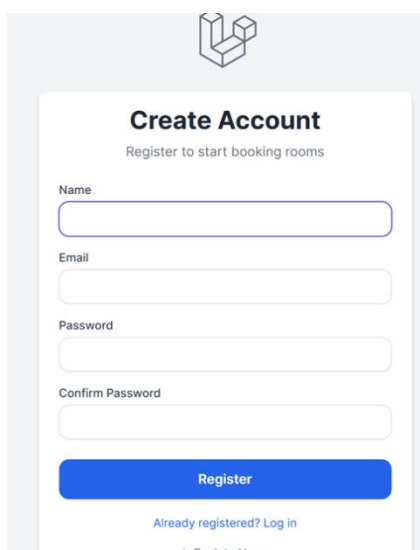

5.0 User Registration

New users must register before accessing the system.

Steps

1. Click **Register**.
2. Enter:
 - Name
 - Email
 - Password
 - Confirm Password
3. Click **Register**.

The system will create a new user account and redirect to the Dashboard.

The image shows a 'Create Account' registration form. At the top, there is a logo consisting of three stacked cubes. Below the logo, the title 'Create Account' is displayed in bold, followed by the subtitle 'Register to start booking rooms'. The form contains four input fields: 'Name', 'Email', 'Password', and 'Confirm Password'. Each field is a rounded rectangle with a light gray border. Below the 'Confirm Password' field is a blue button with the text 'Register' in white. At the bottom of the form, there is a link that says 'Already registered? Log in' and a link that says '← Back to Home'.

6.0 User Login

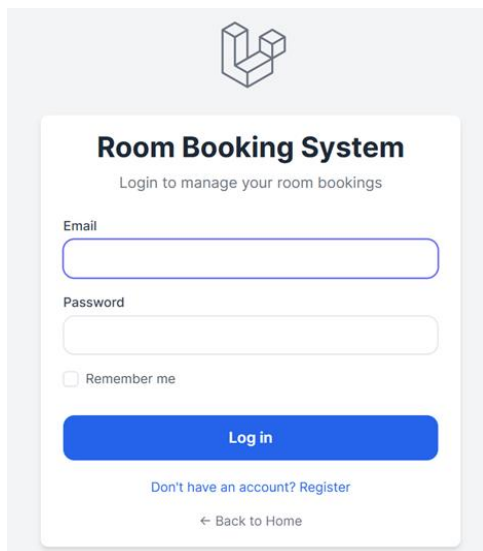

Registered users can log in using their credentials.

Steps

1. Click **Login**.
2. Enter:
 - Email
 - Password
3. Click **Log In**.

Upon successful authentication, users will be redirected to the Dashboard.

If incorrect credentials are entered, an error message will be displayed.

A screenshot of a web application's login page. At the top center is a logo consisting of three stacked cubes. Below the logo, the title "Room Booking System" is displayed in bold, followed by the subtitle "Login to manage your room bookings". The form contains two input fields: "Email" and "Password". Below the "Password" field is a checkbox labeled "Remember me". A prominent blue button with the text "Log in" is positioned below the checkbox. At the bottom of the form, there is a link that says "Don't have an account? Register" and a link with a left-pointing arrow that says "Back to Home".

7.0 Dashboard

The Dashboard provides an overview of the system.

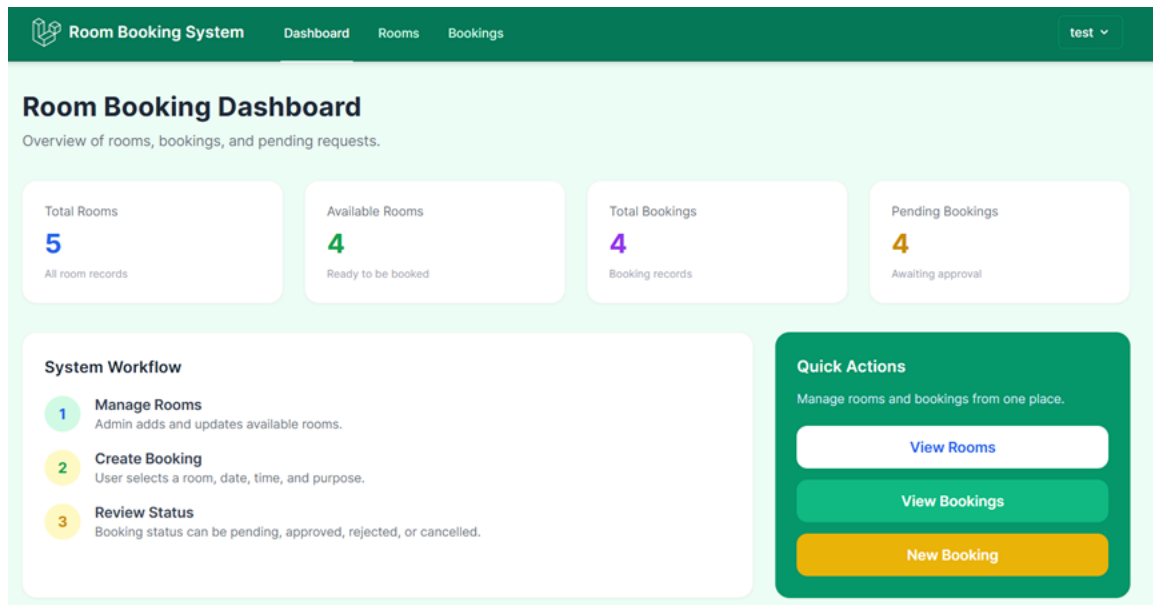

It displays:

- Total Rooms
- Available Rooms
- Total Bookings
- Pending Bookings

Users can also navigate to:

- Room Management

- Booking Management
- Profile

8.0 Room Management

Rooms

The Room Management page displays all registered meeting rooms.

Users can:

- View rooms
- Add new rooms
- Edit room information
- Delete rooms

Room Booking System Dashboard Rooms Bookings test					
Room Management Manage room details, capacity, and availability status. + Add Room					
ID	Room Name	Building	Capacity	Status	Action
2	Discussion Room 1	Tower A	5	Available	Edit Delete
3	Meeting Room 1	Tower A	10	Available	Edit Delete
4	Meeting Room 2	Tower A	20	Available	Edit Delete
5	Game Room	Tower A	5	Maintenance	Edit Delete
6	Board Room	Tower A	50	Available	Edit Delete

8.1 Add New Room

Steps

1. Click **+ Add Room**
2. Complete the form:
 - Room Name
 - Building
 - Floor
 - Capacity
 - Facilities
 - Status
3. Click **Save Room**.

The room will be added to the database.

Room Booking System		Dashboard	Rooms	Bookings	test
+ Add New Room Fill in the room information below. Room Name Building Floor Capacity Facilities Status Available Save Room Cancel					

8.2 Edit Room

Steps

1. Select **Edit**.
2. Update the room details.
3. Click **Update Room**.

The updated information will be saved.

8.3 Delete Room

Steps

1. Click **Delete**.
2. Confirm the deletion.

The room record will be permanently removed.

9.0 Booking Management

Bookings

Users can:

- Create booking
- View booking
- Search booking
- Edit booking
- Delete booking
- Export booking report

9.2 View Booking

Click **View** beside any booking.

The system displays:

- Room
- User
- Booking Date
- Time
- Purpose
- Status

9.3 Edit Booking

Steps

1. Click **Edit**.
2. Update:
 - Room
 - Date
 - Time
 - Purpose
 - Status
3. Click **Update Booking**.
